Experience

Cybersecurity Intern

Bahrain, Hamad Town

- Completed hands-on cybersecurity training on **TryHackMe (Pre-Security Path)**, building foundational knowledge in networking, Linux basics, security principles, and introductory ethical hacking concepts
- Gained practical experience through virtual lab environments, using tools such as **Nmap** for network scanning and **Wireshark** for packet analysis and traffic inspection
- Worked with IT Projects team to verify IT security requirements for incoming systems or IT services.

Education

BA in Cybersecurity

2022 to 2026

University of Bahrain

GPA: 3.08

- Major focused on Cybersecurity and Networking
- Completed CompTIA Security+ certification
- Currently preparing for eJPT (eLearnSecurity Junior Penetration Tester) certification
- Completed online courses and certifications in Cybersecurity, Networking, and Cloud Computing through Coursera
- Studied networking concepts including TCP/IP, DNS, DHCP, routing, and switching
- Practiced using tools such as Wireshark and Nmap in virtual lab environments

Projects

Developed a university senior project: **SafeNote App (Flutter / Android)** with biometric authentication, implementing secure user login using fingerprint-based verification, and focusing on secure note storage and access control

Accomplishment and Awards

- Participated in IT/cybersecurity workshops and AWS labs, gaining hands-on experience with security tools and cloud services (EC2, S3, IAM).

Skills
